

# Wednesday Evening Printmaking

Linocut carving and various printmaking techniques happen from 6:3-8:30

Everything is here that you need for a simple printing project. Small linocut blocks with tools to carve and the inks and paper are available. We've been experimenting with various other techniques such as plexi-glass mono prints with liquid soap and watercolour crayons

If you'd like to just come for one or two evenings to work on Christmas cards or an invitation you designed everything will be set up to go.

There is the opportunity to book the evening for a group class in introduction to linocuts or something more specific in printmaking.

Make it a habit of coming to The Art Tree every Wednesday and you'll end up with a wonderful variety of personal art.

If you have specific requests please contact me at [info@thearmtree.biz](mailto:info@thearmtree.biz) or 403-247-3255.
